

APPLICATION AREAS

Multi-Purpose Fields,
Football Fields,
Basketball Fields,
Tennis Courts,
Walking Trails

SYSTEM DESCRIPTION

Multi-Sport KDK grass
carpets are one of the
most common systems
preferred for
multi-purpose
fields.

FEATURES

With its performance similarity to natural grass, Multi-Sports KDK can maintain its performance for many years due to its special polyethylene material. In addition, due to its UV resistance, the color quality is maintained and the player and the spectators enjoy the natural grass pleasure for many years.

MULTI SPORTS KDK

TECHNICAL INFORMATION

Synthetic Grass	11 MM – 13 MM – 15 MM KDK PADEL		
Backing	160 GR PP BACKING		
Latex	850 GR- 1.000 GR LATEX		
Yarn	6.500 - 7.300 DTEX	%100 PE KDK	
Number of Stiches	62.500 – 70.500 Units		
Yarn Weight	1.400 Gr- 1.750 Gr		
Carpet Weight	2.500 Gr – 2.880 Gr		
Joint Tape	450 GR Tarpaulin		
Adhesive	21 + 4 KG Double Components Polyurethane Adhesive		
Silica Sand	0.2 – 1.0 MM Dried and Baked Round Silica Sand (3 – 5 Kg)		

INSTALLATION METHOD

Subbase	Concrete or asphalt surface should be preferred. There must be a two-sided or one-sided surface slope.
Synthetic Grass	The grass are laid side by side rolls according to the project, and the joints are cut and combined.
Field Line	The field lines are original white-yellow grass carpets cut into 8-12 cm width and laid on the grass field.
Joint Tape	Joint Tape is used to connect grass carpet pieces together.
Adhesive	Thoroughly mixed two-component adhesive is applied to the joint tape and placed between two grass carpet pieces, ensuring that the edges of the grass carpets are in good contact with the adhesive.
Silica Sand	Silica sand is applied equally to grass carpet with special equipment and machines. Level correction is then performed.

COLORS

Grass Carpet	Light Green, Dark Green, Mixed Green
